MIAMI AIRCRAFT STRUCTURES, Incorporated, is absolutely committed to meeting and exceeding all of our customer's expectations in terms of quality and performance of the products and services we provide. M. A. S. Is an established FAA approved repair station with a limited airframe rating specializing in the maintenance, repair, overhaul and modification of both bonded and advanced composite components. M. A. S. Is dedicated to providing your operation with an economical means of lowering your maintenance costs, supplying a durable quality oriented product and service that conforms to your schedules.

M. A. S. Is currently approved to work on the Boeing B-707, 727, 737 (all series), 747 (all series), 757; McDonnell Douglas DC-8, DC-9/MD-80, DC-10/MD-11 and the Lockheed L-1011 and the C-130 Hercules. Not only can your components be maintained at our facility two-miles west of Miami International Airport, but M. A. S. Is also approved to support your maintenance operations anywhere, any-time, world-wide.

All of Miami Aircraft's repair technicians have formal instruction in the maintenance and repair of bonded components. M. A. S. Is constantly providing it's repair staff with the latest information and training in repair technology applicable to our work scope to better prepared to assist you in your maintenance needs.

The quality philosophy of Miami Aircraft Structures is one of prevention rather one of detection. M. A. S. Is obligated to satisfying both your quality assurance and quality control requirements.

We are looking forward to becoming an approved vendor for your company and performing maintenance related functions on your behalf.
